

Customer Health and Safety Precautions

COVID-19 has impacted all of us. In response to the pandemic, and our effort to keep everyone safe and healthy, we've adapted our business practices with guidance from city, state and federal officials. We would like to be as transparent as possible with our community and the deep commitment we have to operating and serving responsibly. We'd like to take this time to share the things we're doing to ensure the safety of our team and our guests.

- The entire restaurant has been deep-cleaned, sanitized and disinfected before our re-opening.
- Temperature checks are being done for every team member upon their arrival. Any employee not within safe range or with respiratory issues will be immediately sent home.
- All employees are asked to self monitor at home. Any employee not feeling well, for any reason, is staying home to care for themselves and our community.
- Masks are required by all staff members at all times and are being provided by Pasqual's Cantina.
- Single use gloves are required for all employees while cooking, plating, delivering food & cleaning.
- Cell phones are not permitted to be carried or used by employees.

We have implemented new, stricter sanitation practices for all areas of the restaurant to keep things clean, sanitized, tidy, and safe. We are following all recommended CDC protocol for food businesses as well as following the Public Health of Madison & Dane County. Things included in our protocol include, but are not limited to:

- Hand washing following CDC protocols by all employees.
- Sanitizing food preparation stations at least twice per hour.
- Storage containers, cooking equipment, knives, cutting boards and all high touch areas sanitized before and after each use.
- Kitchen is deep cleaned and sanitized at least once a day.
- Food and beverage items being prepared are transferred using contactless methods.
- Proper hand washing signs are posted at each hand washing station.
- All food pick-ups are contact free.
- All deliveries of product to the restaurant are received through distancing measures and processed into the restaurant following our sanitation measures
- All fresh foods are thoroughly cleaned immediately after arrival and stored in sanitized containers.
- Hand sanitizing supplies are available throughout the restaurant for guests and staff. Hand sanitizing does not replace hand washing.
- Proper cleaning and sanitation of every table and chair between guests.
- All Guests are asked to wear a mask while entering the restaurant, placing orders, going to the restroom, and exiting.
- Guests will be given a disposable paper bag to place their mask in while they are seated and eating and drinking.
- All tables for seating will be at least 6 feet apart to allow for appropriate social distancing and we will be following the mandate for capacity from Dane County.

- Members of our team are not allowed physical contact (hugs, high fives, hand shakes) with our guests or each other.

We welcome any questions you may have about the steps we're taking to ensure the safety of everyone at Pasqual's Cantina. We remain committed to navigate this time in the safest and most responsible approach and stay up to date on any and all CDC recommendations, adjusting our protocol as needed to ensure everyone's safety. Please continue to take good care of yourselves and each other.

Stay Safe, The Pasqual's Cantina Family
